

## **Biocidal Products Regulation (BPR)**

The Biocidal Products Regulation (BPR, Regulation (EU) 528/2012) concerns the placing on the market and use of biocidal products, which are used to protect humans, animals, materials, or articles against harmful organisms like pests or bacteria, by the action of the active substances contained in the biocidal product. A biocidal product is defined in the Biocidal Products Regulation as any product or substance which is intended to destroy, control, or prevent the effects of harmful organisms, or in any other way control harmful organisms, other than by means of physical or mechanical devices.

This letter certifies that HandyTube's stainless steel products do not contain any of the substances regulated under the requirements of the Biocidal Products Regulation.

We thank you for your business.

Respectfully,

Rebecca Reimer  
Environmental, Health and Safety Manager
