

**Subject: RoHS, REACH, TSCA, PFAS, EU POPs, and California Proposition 65 Compliance Declaration**

HandyTube LLC supplies stainless steel and nickel alloy tubing manufactured to defined material specifications and supported by supplier certifications. Based on this, HandyTube LLC provides the following declarations:

**RoHS Compliance**

HandyTube LLC products are compliant with the requirements of the European Union Restriction of Hazardous Substances (RoHS) Directives (EU) 2002/95/EC, (EU) 2011/65/EU, and (EU) 2015/863, based on supplier certifications and material composition of the alloys used.

**REACH Compliance**

HandyTube LLC supplies products that meet the definition of “articles” under REACH Regulation (EC) 1907/2006. Our products are not intended to release substances under normal or reasonably foreseeable conditions of use. Based on supplier information and ongoing review of the ECHA Candidate List, Substances of Very High Concern (SVHCs) are not expected to be present above 0.1% weight by weight in any article.

**TSCA Compliance**

HandyTube LLC products are compliant with applicable provisions of the U.S. Toxic Substances Control Act (TSCA), including current Section 6 restrictions, based on supplier certifications and material composition data.

**PFAS Statement**

Per- and Polyfluoroalkyl Substances (PFAS) are not intentionally added in the manufacture of HandyTube products. Based on supplier information and material knowledge, PFAS are not expected to be present above applicable regulatory reporting thresholds as defined by current U.S. and international regulations.

**EU POPs Compliance**

HandyTube LLC products comply with EU Regulation (EU) 2019/1021 on Persistent Organic Pollutants (POPs). Based on supplier declarations, restricted substances are not expected to be present above applicable threshold limits.

**California Proposition 65**

Based on available information and the intended use of the products, HandyTube LLC products are not expected to require a warning under California Proposition 65.

This declaration is based on supplier certifications, material specifications, and ongoing regulatory review. This statement applies to the finished tubing products supplied by HandyTube LLC and does not account for downstream processing or end use applications.

HandyTube LLC continues to monitor regulatory developments and will update this declaration as necessary.

Sincerely,

Rebecca Reimer  
Environmental, Health, and Safety Manager
